

# GREEN POLICY

Green Initiatives at NMKRV shall continue to maintain the campus as an 'Environmentally Conscious Workplace. A healthy workplace enhances a sustainable life for all and ensures a clean Ecosystem for future generations, while a healthy person is a productive student, teacher, or administration. Even though the upfront costs to establish an effective, new system may be high, we endeavour to factor it in, because in the long-term money saved will be health saved for us and our only abode.

We reiterate our collective commitment to LEARN, PRACTISE, & CONTRIBUTE

- To conserve natural resources
- Reduce pollution
- Minimize wastage

We abide by the following Eco-friendly practices and Conscious strategies:

- Reduce usage of paper (tree conservation means better air quality)
- Reduce usage of chemicals (soil, water, and air are less polluted)
- Opt for renewable/solar energy sources
- Use energy saving appliances
- Purchase eco-friendly, 'green', cleaning products
- Dispose biodegradable items responsibly
- Practice recycling
- Reduce wastage of food
- Compost garden waste
- Watch water usage
- Become a conservative consumer of market goods
- Pay attention to packaging and plastic bags
- Encourage usage of reusable water bottles, cutlery, and coffee mugs
- Unplug and shut off electrical gadgets when not in the room
- Use LED lights

By eschewing wasteful efficiencies, we promise to combine and promote education assure means of Inclusive Development for Nation Building.
