354 responses

11. Your mentor does a necessary follow-up with an assigned task to you

354 responses

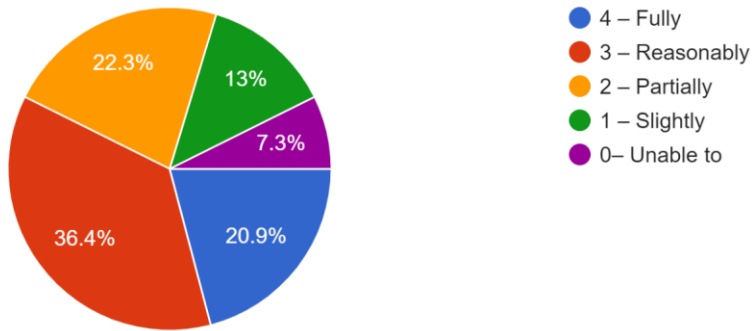

12. The teachers illustrate the concepts through examples and applications

354 responses

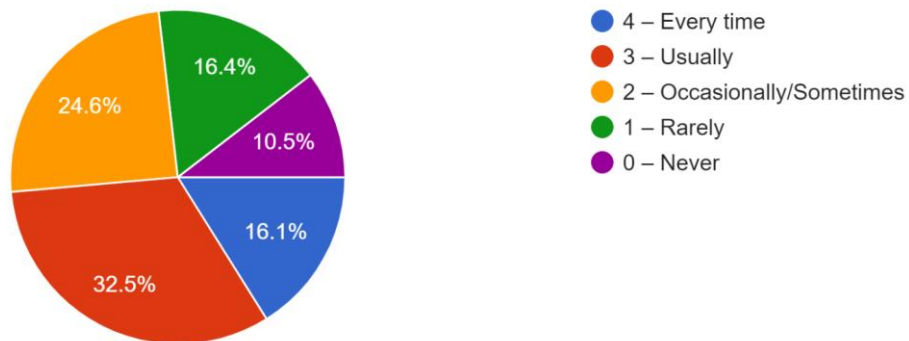

13. The teachers identify your strengths and encourage you with providing right level of challenges

354 responses

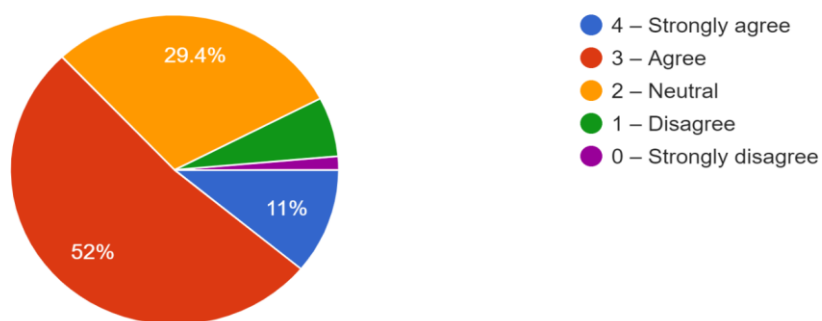

14. Teachers are able to identify your weaknesses and help you to overcome them

354 responses

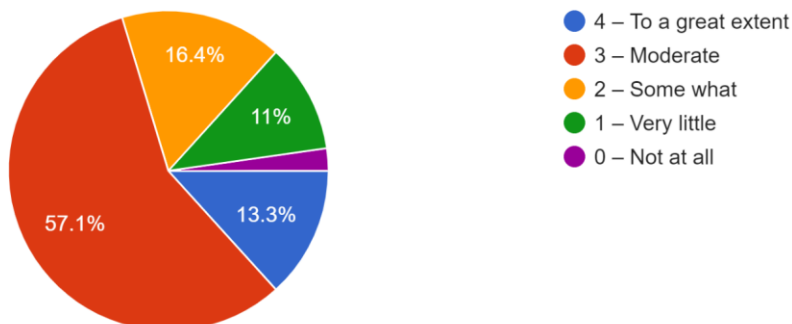

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process

354 responses

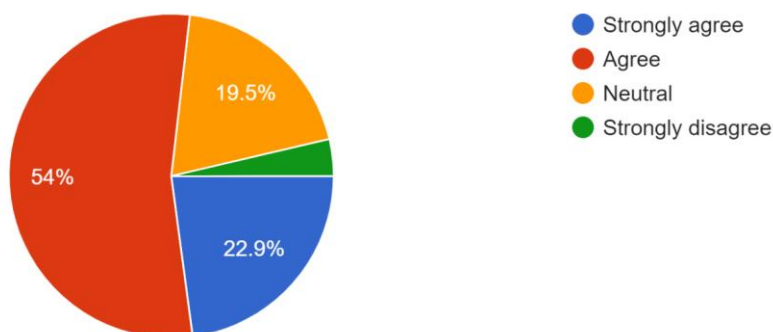

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

354 responses

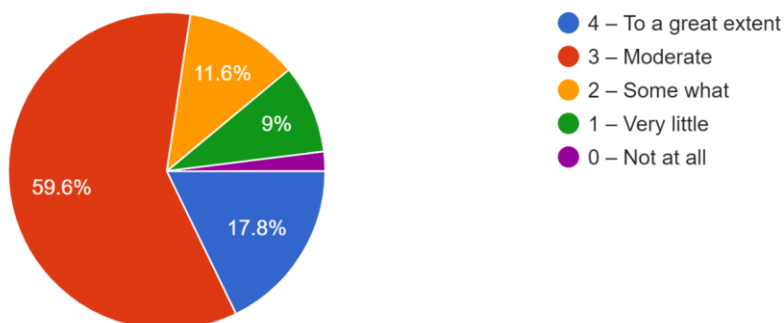

17. Teachers encourage you to participate in extracurricular activities

354 responses

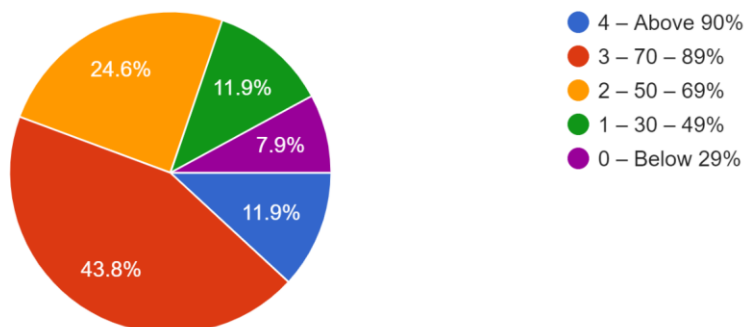

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work

354 responses

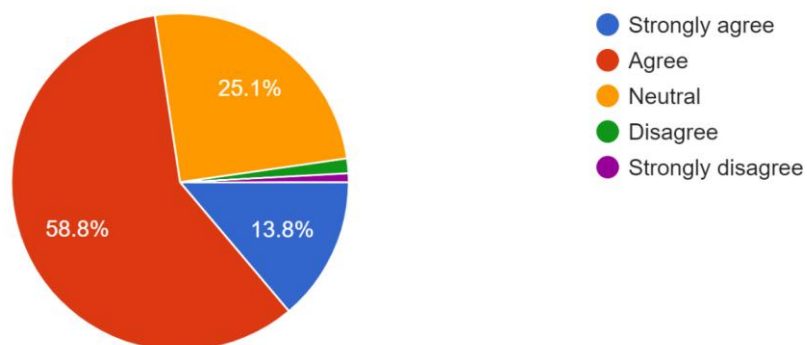

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching

354 responses

20. The overall quality of teaching-learning process in your institute is very good.

354 responses

21. Suggestions

Live examples

Good in everything

Giving practical examples is very easy to understand the concept

Still detailed explanation and material notes are required

Everything is good

Giving practical example

Openmindness from teachers,able to take suggestions from students

Giving practical examples is very useful for learning.

Go slow in teaching so that we can concentrate more on subjects

Giving practical examples is very useful

Overall it's good

They should interact with students

They should go little bit slow

To provide industrial visit opportunities

To provide opportunities for internship

Need more examples to understand the subject

Industry vist must be proovided,allow institute to internship

To provide industrial visit opportunities

Try to explain in practical way not explain theory

Allowing the students to intern during final year.

Use more live examples, practical

Don't just go with a theory try to explain in practical way so that we can know about that thoroughly

We want extra attention for poor students

Extracurricular activities

More of seminars

Active part in every class

We are ok for the teaching.

Their is best teaching provided no improvement required as per my experience I have received good explanation and leaning skills.

Must give oppportunity for internal for final year and request to arrange for the industrial visit.

Should be better at practical subjects, we should get a proper notes for every subject

Treat all students fairly without any partiality.

Practical oriented learning to be improved

More of practical illustration

Importance to every student

Bit politeness from lecturer towards students in few situations

1. Provide with digital skills like freelancing

2. Provide more and more industrial visits

3. Provide more life skills and practical skills then only books.

1 Live examples

Teachers should give more examples

Should be improve in theory ,should be improve in practical,should give notes of all the subject

Experimental learning, cultural activities, industrial visit

Industry visit.

Conduct GD

Have interaction sessions

Improve practical learning

Deep explanation about any topic is required. Full knowledge not partially.

Politeness required by some teachers.

Partiality should not be there.

Corrections are strict.

I think few lecturers must be fast at the first few months of the semester instead of being slow at the start and very fast at the last few months.

Syllabus must eliminate repeated topics.

Due to COVID -19 we weren't taken to industrial visit , I feel no matter what the circumstances , final year students must be taken to Industrial Visits to know how industries work practically.

Thank You for Giving Us wonderful lecturers , we're lucky to have them .

Long explanation should be interactive.

Activities can be done according to the syllabus.

General knowledge of the current economy/situation should be considered in the syllabus.

Corrections are strict

1.Improve infrastructure

2. Teachings to be done by using projector, multimedia

3. Proper notes to be given

Sometimes corrections are strict

1. They must present on projectors i.e videos for better understanding.

2. They should understand each student's understanding level and try to overcome the problems facing with them.

Motivation to average students

Interaction more with average students

Teaching to be done by using Projector, multimedia

Proper notes should be given

Encourage cooperative learning

Interaction between teachers and students

Some practical skills should also be thought

\* More practical skills

\* More reality examples in the subject

\* motivation and interaction

Not Satisfactory

We want more detailed explanation in teaching

1. Treat everyone equally

2. Increase in extra curricular activities

Give practical experience to the students

Use the recent trends to bring on the subject

Improve the relationship between students and teachers related to curriculum

1. We need virtual teaching

2. We need more practical knowledge

Workshop's

1. Teachers should not do Partiality

2. Practical subject teacher must be experienced and explain properly and not be confused

3. Lecturers must be more audible

Revision

Even more interactive

Soft

Practical learning ,

Long lectures should be made short and easy to students.

Skill development should be explained and make it simple

Current general knowledge and current affairs should be considered.

Provide student co curriculum activities in which students are interested and are ready to participate

Partiality must be stopped correction must be done in a good way

Teaching should be in interesting way, polite way, using more examples, motivating the students.

Need more clear clarity while doing classes

We need practical learning

We need guidelines for job recruitment

We need industrial visits for more accurate education

I think we need mock interviews to attend our placement .

If we are lacking somewhere they should find and correct our mistakes.

By conducting more workshops.

Teaching in depth of theory topics.

1. Provide study materials

Participating learning... They should discuss ideas about skill development

Need some more Examples related to topics

kindly I request 50% of lesson covered in midsemester only nd tq

To teach little bit slowly

1. Quality education required

2. Teacher should be well prepared before taking class

3. Extra curriculum activities must be effective

Provide study material ,
