Instructions to fill the questionnaire

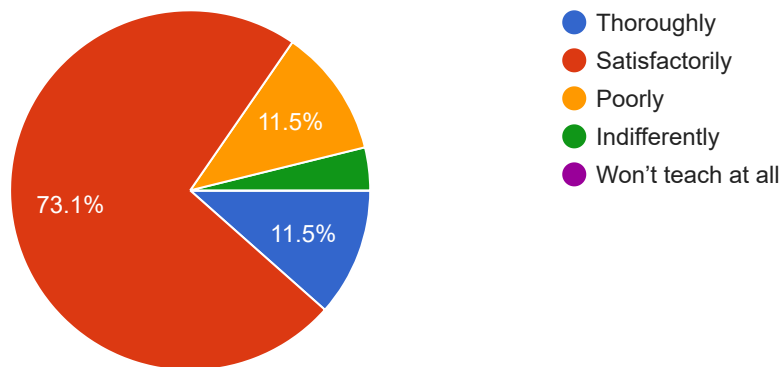

How much of the syllabus was covered in the class?

52 responses

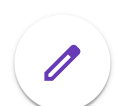

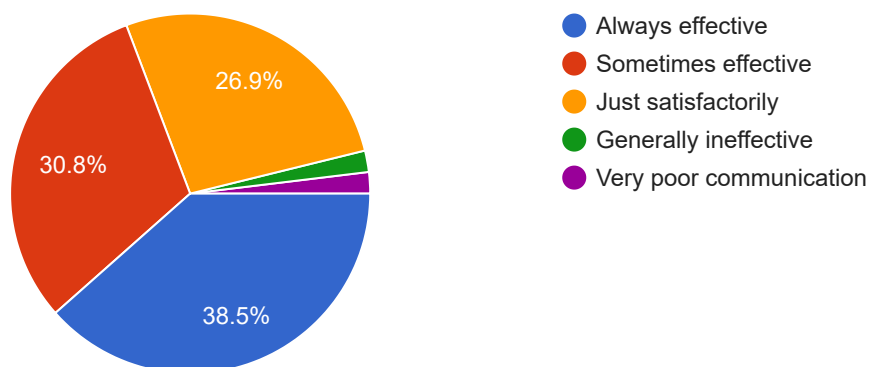

How well did the teachers prepare for the classes?

52 responses

How well were the teachers able to communicate?

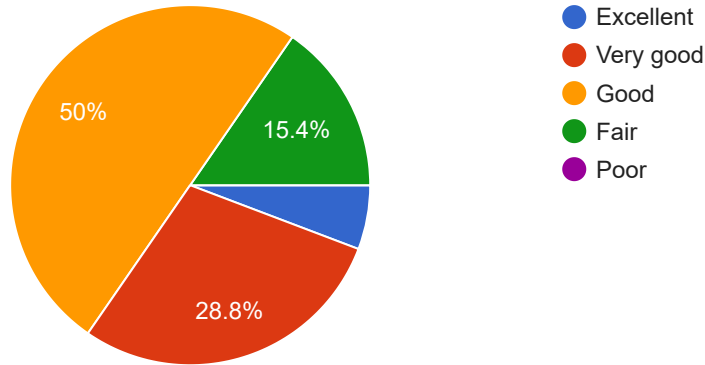

52 responses

The teacher's approach to teaching can best be described as

 Copy

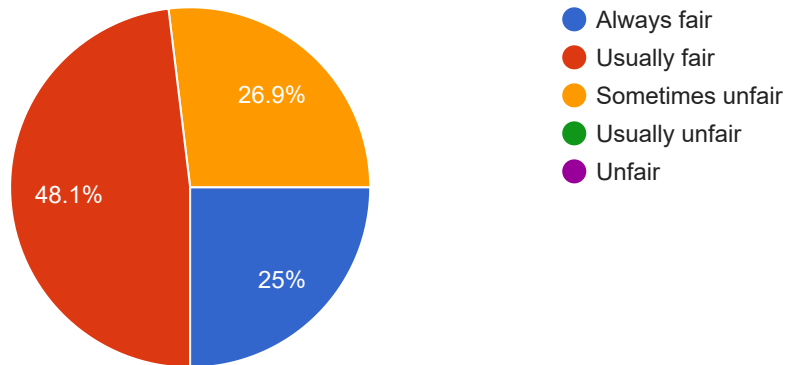

52 responses

Fairness of the internal evaluation process by the teachers.

 Copy

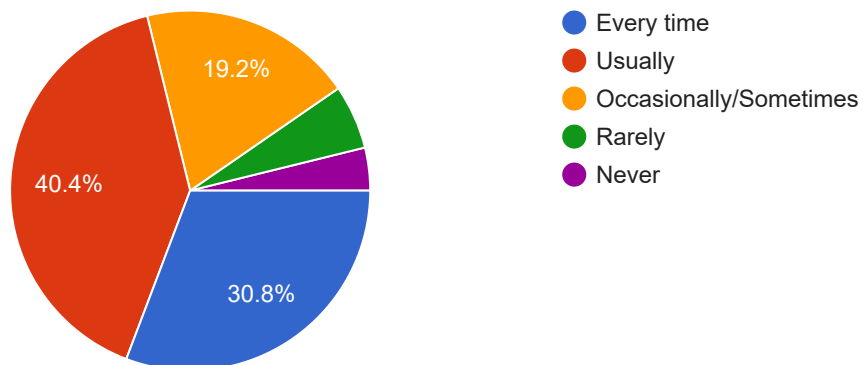

52 responses

Was your performance in assignments discussed with you?

 Copy

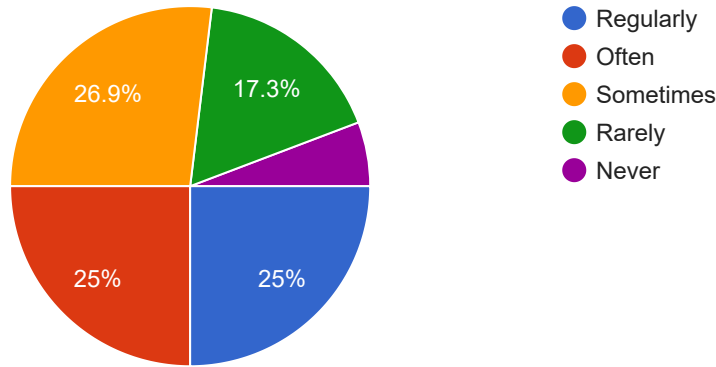

52 responses

The institute takes active interest in promoting internship, student exchange, field visit opportunities for students

 Copy

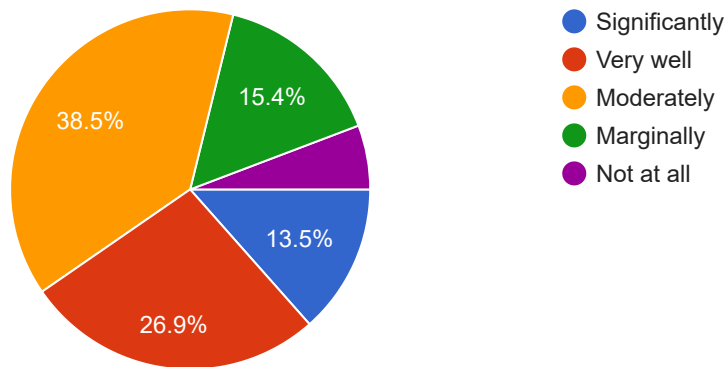

52 responses

The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

 Copy

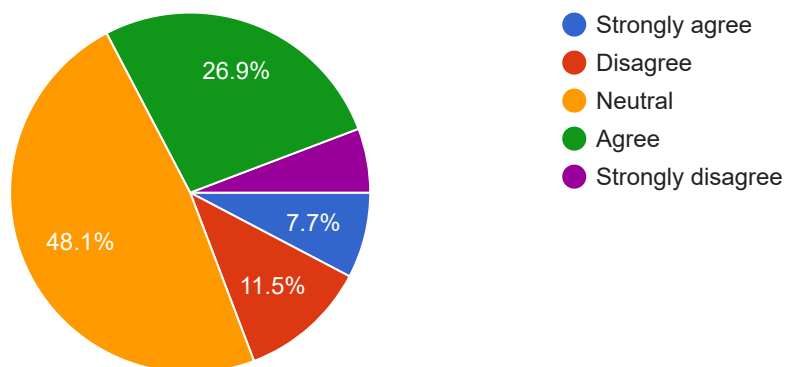

52 responses

The institution provides multiple opportunities to learn and grow.

 Copy

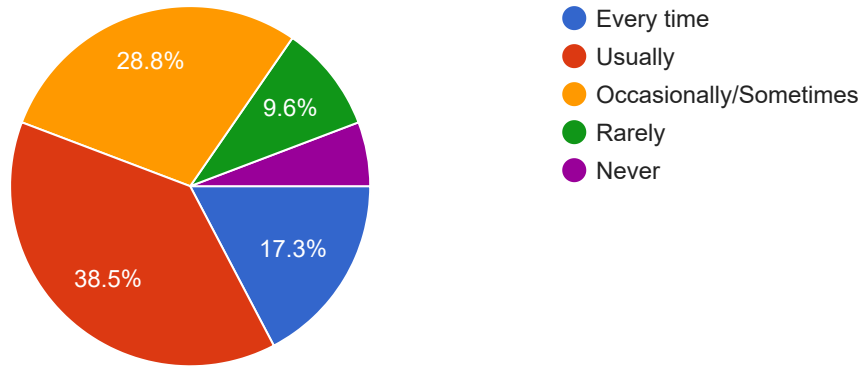

52 responses

Teachers inform you about your expected competencies, course outcomes and programme outcomes

 Copy

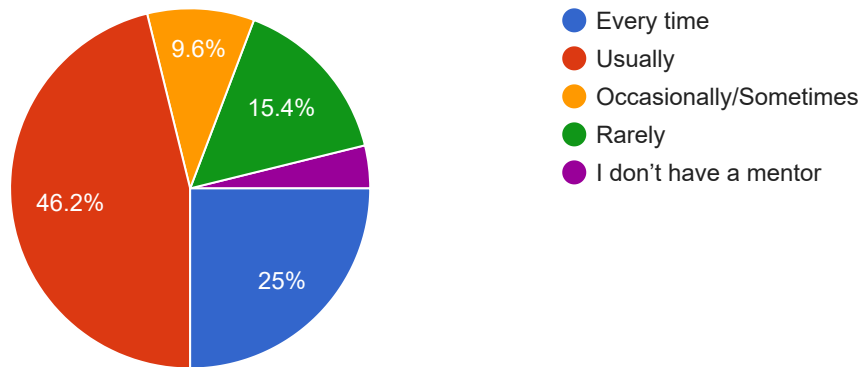

52 responses

Your mentor does a necessary follow-up with an assigned task to you.

 Copy

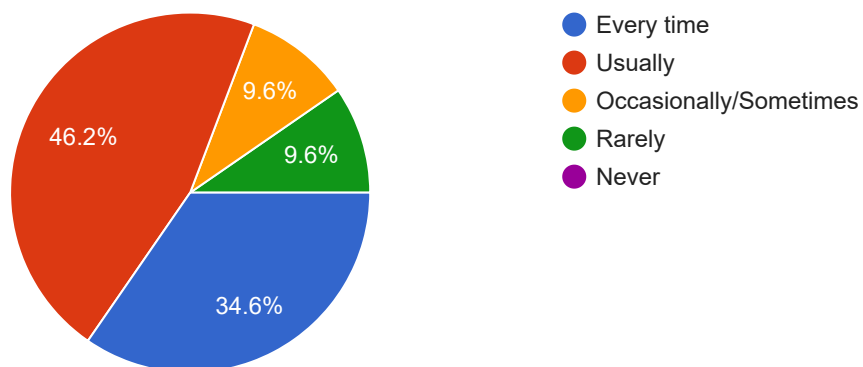

52 responses

The teachers illustrate the concepts through examples and applications.

 Copy

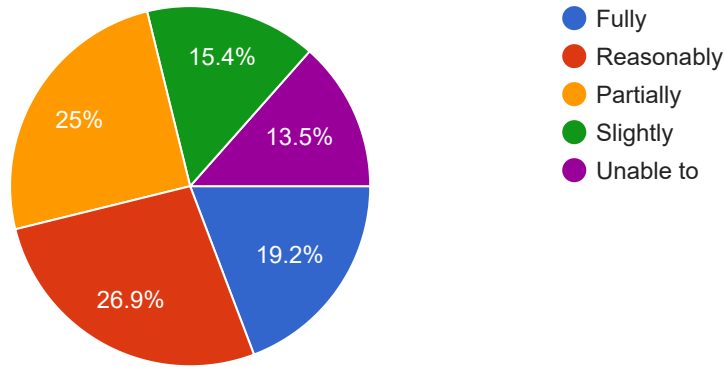

52 responses

The teachers identify your strengths and encourage you with providing right level of challenges

 Copy

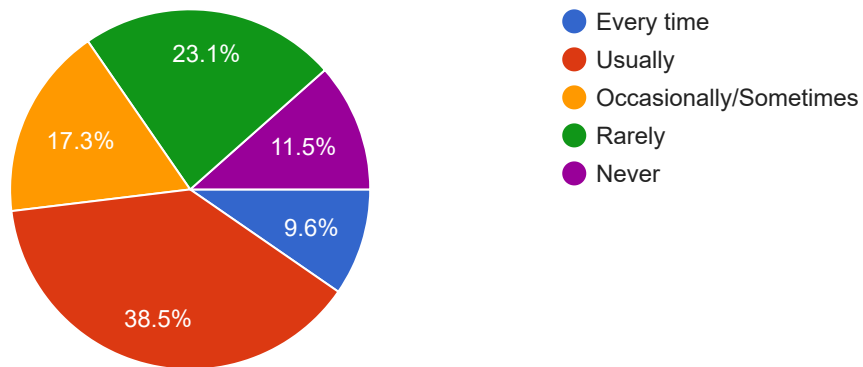

52 responses

Teachers are able to identify your weaknesses and help you to overcome them

 Copy

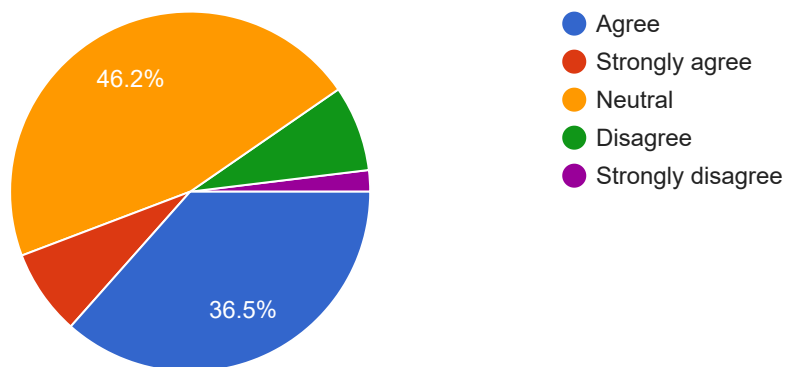

52 responses

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process

 Copy

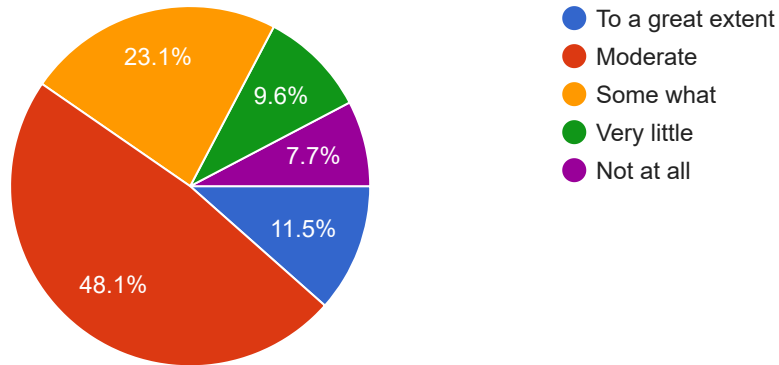

52 responses

The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

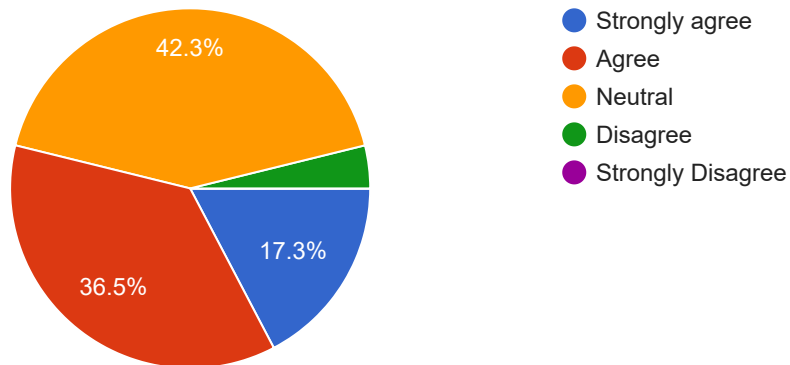

52 responses

Teachers encourage you to participate in extracurricular activities.

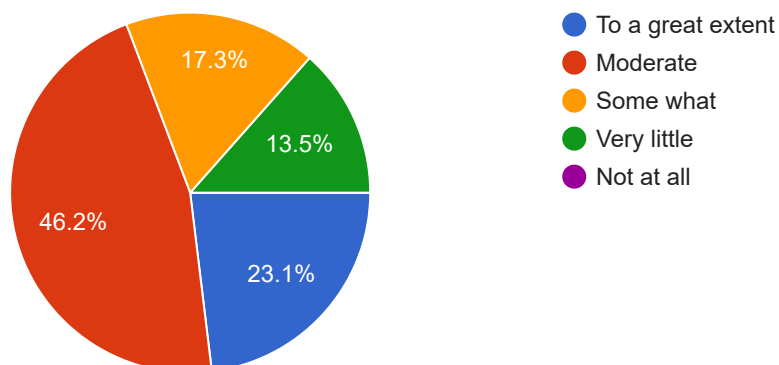

52 responses

Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

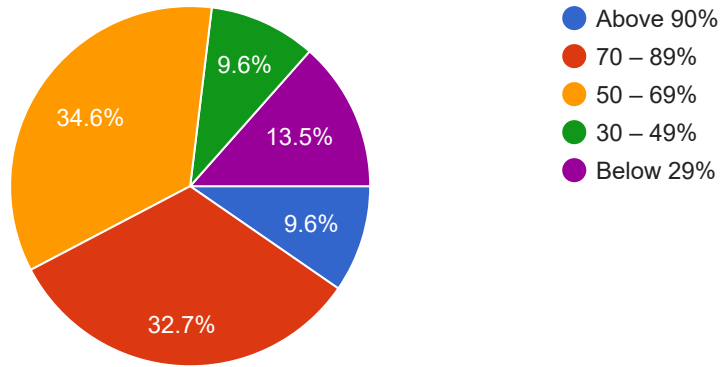

52 responses

What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

52 responses

The overall quality of teaching-learning process in your institute is very good.

52 responses

Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

52 responses

Nothing

Better than

Nil

Improve quality teaching

Should have more effective teaching which helps to grasp the subject easily where time consume would be reduced

There should be an field work visit for every year to get the better experience

Infrastructure , improve teaching quality

They can encourage the students more
Talk positively and make the students motivate

*Infrastructure improvement

*Using of good communication by teachers .

*Principal involvement in the institution

1. Upgradation and adaption of knowledge by teachers.
2. Low quality infrastructure.
3. Encouragement by teachers to students for various courses outside college and building them for competitive exams.

No suggestions

My learning experience and teachings are good.

While teaching give examples

Giving notes

Take care of each students in the class

Giving notes

Examples

Take care of each students in the class

No suggestions

Give notes,Provide examples and give attention to all students in the class

ಒಪ್ಪುತ್ತೇನೆ

Don't compare the students to one on another because their have their own abilities.

To set proper timetable, teacher's to give more examples while explaining.

1 If the teachers would inform us about the topic before hand we could prepare and it will become a interactive session.

2 group activities will be very effective and quick learning.

3

1. Using more ppt

2.college providing more opportunities to develop onself

The teaching skills should be improved and improve communication by sociology department they are so rude to students and keep a proper timetable as we can't stay till 5 pm and in between there are breaks so much if time waste

All students are not same some students need extra lesson teachers should be most effective to them by teaching.

kannada language increase the very well useful to teaching and learning kannada

The students need greater exposure to other domains

The Institute heads are not reasonable

Faculty needs to improve their teaching

To give a proper content to read and not leave us.. To fail for exams

should understand and communicate accordingly

Hygiene restroom

It can be more interactive and more of practical exposure

Exposure to more field trips and internships

More of real life practical teaching than text book teaching/blindly dictating

Inclusive of more workshops on apart from the subject topics too

College should grow open minded and with the new generation. Professor should use the ICT tools often. Washroom should be clean and they should alot the classes properly and should have Ac in class room

Improve infrastructure i.e digital boards, internet provisions

Hygiene restrooms

Encourage for more exposure, make field visits and other activities for arts department.

The communication skills of the teachers among themselves and with the students needs to be improved.

Student should be involved in better field experiences.

College timings should be really modified as students will need other time to engage themselves in extracurricular activities and other activities that help them grow.(Parents also hav the same concern)

Opportunity to explore more outside the syllabus.

To explore more of the subject through field trips, conference and workshops.

Annual field trip to students with teachers

Should be understandable

To be interactive during lectures

To be polite when students approach them

To be corporative during assignments (giving clarity about the assignments)

Communication should be more effective.

Infrastructure.

A better communication should be there

The teachers should be more approachable, teachers should give time for work/assignments, should be ready to understand our problems

1) primarily for me is sharing & teaching practical knowledge, practical experience knowledge which I give more importance to that & that's my priority forever

2) for poor & average scoring students every teachers can conduct tution classes for them in improving their studying capacity, skills, knowledge skills & IQ POWER

3) teachers can conduct extra coaching classes & extra special classes in weekends if the course portions are not finished or extra field work activities for betterment of improving & developing student s future growth in carrier wise

The psychology teachers teach the best way in all the aspects but other than them some teachers teach good but learning experience can be improved better.....

1. Employ skilled teachers rather than ones who are qualified with degrees.

2. Provide exposure to students through various practical demonstrations and field visit

3. Pedagogy pattern should be changed from explaining format to discussion and group activity format with relevant questions and case studies

4. A resource room should be installed for futher help as a classroom consists of diverse IQ levels which makes it difficult to find a mid ground for professors.

Writing part should get reduced filed works should be more than only journalism students can understand

Implement interactive learning methods to increase student engagement and participation.

Establish a regular and effective feedback system to track student progress and identify areas

of improvement. Leverage technology to enhance teaching and learning, increasing accessibility and flexibility.

Ok

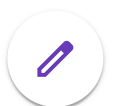

They should

5 responses

Over all its good , keep same goals so from that it helps many students to pursue this course

The students were given opportunity to explore their talents and interest,a good support system was given overall.

I had a good experience, support from the faculty and HOD Sir.

Improve in teaching skill .
One trip for bach should be a part of education program.

No

18 responses

Nothing

NA

All teachers are best

1. Promote interdisciplinary learning
2. improve faculty development programmes
- 3 focus on emotional and social learning

- 1) The assignments can be made more soft skills centric.
- 2) There can be introduction of online portal for students to access course contents if missed due to any circumstances.

Nil

Using more ICT tools, engage student in different activities, form more interactive clubs

The teaching can be more learner centric
It can also involve more engaging activities and discussion
It can also involve practical application and real life examples or applicability of the theoretical leaning.

The teachers are cooperative

Bring new methodology for teaching

None

More field programme

Every thing is good

I would like to give few suggestions to conduct more seminars to build more confidence in students and I would suggest to give more practical classes to experience the subject or topic and lastly I would like say to take for industrial visits every year.

..

First of teachers are so negligenet in submitting the internal marks and this caused my graduation delay due to stupid management miss which cannot be reverse again. Fine arts

was a perfect example. Ur institute should be removed from autonomous and should be under University control so that teachers will be very responsible in finishing their task on time

Everything is up to the mark

Communication with students

No suggestions

Communication with students with little friendly way

Very good

.

Many be little slow.

Our teacher's ensure over learning capabilities and make sure to overcome with good score

Ntg

Quality of teachers is not seen , they teach to a very basic level , many wrong things are delivered in class .

No comments

No comments all are well

Communication skills, need much interactive class, add some extra circular activities

No suggestion

Give more live examples related to topics may help us to learn topics quickly.

1. No proper adjustments in class
2. Rushing up position at the end of the movement of final exam
3. Proper facilities in most of the classrooms for setting arrangement for the students .

Should add more culture event

Dedication

Overall it's a good college with better teaching staffs , but sometimes we expect for more opportunities

Syllabus should be more practical

Institution has to understand the mindset of the students, and talk to them in their low times. Counseling programs should be conducted in the college. Mainly Teachers should support the students for their extra curricular activities. And infrastructure of the college need to developed.

1. Quality teaching
2. Punctuality
3. More exposure

The supplementary fees are not affordable by everyone so I feel it should be at the level where every student should be able to afford it .

Communication skills, proper sequence and not just copy paste the sums on the black board without proper explanation.

Should improve a lot from all perspectives

*Teachers do not respond to the question asked by the students during study leave

*some teachers teaching skills are not up to the mark

*real life examples should be given for proper understanding

Quality is important

The quality of teaching is to a very basic level and not at a level UG students should be taught. Some teachers do not have enough knowledge about the subject to be teaching it.

1. Please improve the infrastructure,
2. few teachers don't mentor the students,
3. Level of stability is low, should improve it.

Give more practical example

Every thing is good

Teaching with live examples

Teachers shouldn't stress us with syllabus

Important questions must be given during exams which will be helpful to score marks

Teaching with live example

Teachers shouldn't stress us with syllabus

Important questions must be given during exam which will be help full to score

Heavy partiality , ur targeted if u talk back ur point , always teachers depend on mood swings,rare teachers are good ..

Provide soft skill facilities and practical education is required for the students

Heavy partiality, your are targeted if you keep your point of view, always teaching depends on mood swings, rare teacher are good

Taking students to field visit.

Showing us the real working environment.

Organising events pertaining to studies.

While taking teachers they could try with atleast experienced ones than the new ones . Overall Neutral

Using more examples

Opportunities for placement and internship shall be provided.

Maintenance of time table .

Opportunities for visiting industries.

May be they must tell us more examples to make that topic clear

Teachers should give real life examples related to topic so that students can understand thoroughly.

Teaching should be more practical based

NA

The lectures should listen to their students about their academic issues .

Use of more technology tools

1. Being updated on current affairs and dynamic environment.
2. Use of new concepts and teaching methodology

Should improve in teaching and management should improve proper talking and behaviour with students and no extra training for students like soft skills and technical skill even Teacher teaching and interaction

Provide practical education rather than theoritacal teaching

Provide better opportunities for career outcome .

Explaining the problems on board

Improve in infrastructure and academic studies.

Teachers should communicate with the all students and over come their fear in all aspects Teachers should not only focus on the education basis but in deep should also respect the individual interests

Try more communication with the students that true way understand students problems

Say teacher's to teach practical subjects on board
Provide placement of finance not sales and marketing

Explaining the problems on board

Some of the teachers are too good in their explanation where as some are won't take the initiative to make it better

Few faculty are to be changed
Rest all there is no problem

Do more cultural activities

To give importance to other activities than studying also

More of disturbance of construction
Should include culture event more
Should provide facilities properly

1. Provide better opportunities in terms of career placements .
2. College is good in terms of education.
3. College has very good faculties.

1. Disturbances in surroundings
2. Some cultural and entertainment activities which is to be known by whole college (to be informed to whole students)
3. Use maximum creative slides to improve laziness of students

Conduct Interactive sections

Give some more live example in their teaching which can relate to real world and must be clear in topics what they teach overall it's good .

Practical Examples should be given, Students should be encouraged, Extracurricular activities, events and programs should be organized,
Good benches should be kept so that students can sit comfortably and concentrate on class,
There is shortage of faculty and classroom.

1. Teachers shouldn't behave as boss
2. if possible should make us comfortable
3. should not keep any grudges on particular student

Should allow students to take up competitive exams by giving moral support

As the teacher in some subject should be experienced in teaching some of the teachers just read the PPTs and finish the portions no correct explanation is given to the students.
In infrastructure in the college is not good.
And the teachers should guide the students.

Offer training opportunities

Audio - visual learning

Experiential learning

Problem solving and also taking a look on mental health of the students, even if it is done rarely, it would be well appreciated.

Some teachers explain very well but some teachers won't take initiative or explain that good

Extracurricular activities like Industrial Activities and many more

Should be a friend and teach us.

Should show some kind of laughter while teaching that relaxes us.

Should conduct less classes

There are so many disturbance during the class, should improve the hygienic, maintain silence during classes

Work closely with students union

Implement creative initiatives.

Rather than focusing collecting money from students they can focus on improving students career/education

College is good in faculty but want More creativity in teaching .

No suggestion/satisfactory

1. College should provide better opportunities in terms of career placements.

Encourage in cooperative learning

*teachers do not respond correctly when student are in leave

*some teachers don't allowed students if they are late for 10minutes

*bench are not comfortable to sit in the last floor and we are getting more free periods due to classroom shortage

Basic facilities are not proper, wash rooms are not proper.

Classroom availability. No permanent class.

To solve problems on board

Priorities students relationship

*Nowadays they starting taking classes at morning 8.30.it is difficult for students who come from far

*Washrooms are not clean

*Lifts are not allowed for students ..if we are late for class also we are not allowed to use lift

*College cleaning premises starts when students start coming to class..cleaners will speak rudely to students..

Practical exposure than theoretical knowledge

Give us some time to complete our skill development record as we will have to write 6-7 books and usually the time given will just be one week.

Yes

Please change e commerce teacher (dhakshayani ma'am)

Let the teacher explain the concept with connecting to the live examples..... Pls change e commerce teacher (dakshayani ma'am)

Good

The curriculum is primarily focused on theoretical knowledge and includes practical skills. and encourage interdisciplinary learning to help students apply concepts in diverse contexts, preparing them for future challenges.

Interactive Learning Tools
Continuous Feedback Mechanism
Skill Development and Practical Exposure

Nil

Comprehensive Feedback Mechanism
Interactive and Engaging Teaching Methods

.

I had experience

I have learned good things

The teaching is good

Good

There is nothing to suggest about the teaching it's very good .
My learning experience was very good and I enjoyed the classes

Overall it is a good teaching

Activity based teaching can be done for better understanding

Placement

Nothing

Teaching aids

There were teachers who did excellent job by teaching on board, not necessarily had to use projectors

Provide placement opportunities for students
Provide extracurricular activities for students

Provide more opportunities to engage with outer world

Teaching was good.

Institute should provide proper placements.

Appoint experienced teachers

Provide differentiated assignments that cater to various skill levels.

Nothing

More practical exposure, hands on experience and a better learning environment

47 responses

Encourage ECC activities
Don't provide marks for attendance
Please provide us with a single classroom

Can alter ambience
Interesting topics to be discussed
Take students out for educational trips

Overall Everything is excellent

Teaching should be done by chalk and board method
Projector/PPT methods should be controlled

Projector method should be controlled, there should be chalk and board process,

Good teaching with good teachers ..

Very good college teachers are friendly

More emphasis on practical knowledge, friendly student teacher relationship, and help with report writing for internship.

Gud clg and teachers are friendly

1. Internal marks allotment can be discussed in a better way.
2. Industrial visits are not satisfactory.
3. Could improve with teacher student interaction in class.

Restroom
Classroom with projector

Women's Washroom facility in 1st and 2nd floor

Change washroom , hygiene problem , there is no placements for science students.

can u chalk and board rather than PPT's

Conducting regular activities related to academics such as Quiz, poster presentation and visit to research labs .

1.Can do better infrastructure

2.can increase more practical classes

More washrooms has to be installed

Very few placement opportunities for science students

There is no placement for science students proper washroom are nt there hygiene is not there

The duration of each semesters could've been a little bit longer to allow the students to grasp the taught concepts well.

Inclusivity factor for all students from other states can be improved.

Include more extra curricular activities

College timing should be from 9:30-3:30 for all the streams .

Teachers should explain topics by taking more real time/life examples

1Make sure projector are fit tightly to wall

2 Please give enough time for teachers to teach or give extra knowledge

3 please provide placement opportunities to science student, all we get is BCOM,BBA related

1. More importance should be given to practical learning than theoretical especially in subjects like computer science.

2. A better allotment in internals is needed.

3. More Industrial visits would be helpful.

1. Infrastructure is good but can be better.

2. Individual classrooms for every class should be allocated.

3. Teachers are great and always approachable.

Please conduct many more fests for learning enjoyably.

Please conduct many more field visits and trips for understand the practical application of our subject.

Overall teaching experience was good.

Chandanachandu0904@gmail.com

Give enough time to teachers to complete the portion, try not to repeat the same syllabus in biotechnology and zoology, please provide placements for science students, all the placements oppportunities so far bba& bcom related.

1- More skill based and exposure to modern application on current scientific developments can be provided

2- More of hands on activities to be provided for each semesters especially for life science students.

Can conduct more subject based activities

Even more indulgement in class rooms

Conduct trip

Good teaching and should continue with the same thing .

1. More placements should be provided for Science students.
2. More intercollege competition

To focus on the topic more deeper in all subjects
Enhance the ambience while teaching
Take us to good educational trip

Teaching would be better if they include better example.
Student teacher interaction should be improved.
Industrial trips will Improve practical knowledge.

Improve washroom facilities

Can conduct activities like fest

Encourage students to take part in extra curricular activities.
Increase the semester duration.

More encouragement and opportunities to take part in extra curriculars
To plan and space the semesters adequately, in order to give time for students and teachers to cover portions which are important for competitive exams, and reduce academic pressure over students and teachers....
To make other arrangements for classes during construction activities to reduce disturbance and help students to concentrate on class

Increase time gap for every sem

Washrooms do not have proper maintenance and equipment's

Nothing

Provide good placements for BSc students
Manage the college timings
Allow to visit research laboratories

-

Extend the working days because in less days it is not able understand the concept
In library the books are not arranged in order it is difficult to search the books
The topics can be explained by taking students to field visit and by demonstration etc

Please make the working hours less at least not till 5pm
